INTRODUCTION

The Consumer Sentinel Network (CSN) is a secure online database of millions of consumer complaints available only to law enforcement. In addition to storing complaints received by the FTC, the CSN also includes complaints filed with state law enforcement organizations such as the Hawaii Office of Consumer Protection, the Montana, North Carolina and Oregon Departments of Justice, the South Carolina Department of Consumer Affairs, the Tennessee Division of Consumer Affairs, and the Offices of the Attorneys General for Alaska, California, Colorado, Idaho, Indiana, Iowa, Louisiana, Maine, Massachusetts, Michigan, Mississippi, Nevada, Ohio and Washington. Federal agencies, including the Consumer Financial Protection Bureau and the Internal Revenue Service, contribute data. The Commission also receives complaints from the Canadian Anti-Fraud Centre. Non-governmental organizations also provide complaint data to the FTC. The Council of Better Business Bureaus, consisting of all North American BBBs, is a major contributor of complaint data. Other organizations include PrivacyStar and the National Consumers League.

Law enforcement partners - whether they are down the street, across the nation, or around the world - can use information in the database to enhance and coordinate investigations. Non-government organizations that contribute complaint data cannot see CSN complaints. Access to CSN is limited to law enforcement organizations.

Begun in 1997 to collect fraud and identity theft complaints, the CSN now has almost 12 million complaints on a wide variety of subjects. The CSN has a five-year data retention policy; complaints older than five years are purged biannually. Between January and December 2015, the CSN received more than 3 million consumer complaints, which the FTC has sorted into 30 complaint categories. Some organizations transfer their complaints to the CSN after the end of the calendar year, and new data providers, added to the system each year, are contributing complaints from prior years. As a result, the total number of complaints for 2015 will increase during the next few months, and totals from previous years may differ from prior CSN annual reports.

The 2015 Consumer Sentinel Network Data Book is based on unverified complaints reported by consumers. The data is not based on a consumer survey.

For more information about the Consumer Sentinel Network, visit www.FTC.gov/sentinel. Law enforcement personnel may join CSN at Register.ConsumerSentinel.gov.

Executive Summary
Consumer Sentinel Network Data Book
January – December 2015

- The Consumer Sentinel Network (CSN) contains almost 12 million complaints dating from calendar year 2011 through calendar year 2015. (In addition, the CSN contains over 16 million do-not-call complaints from this same time period. We report on do-not-call complaints after the end of each fiscal year. See <http://www.ftc.gov/system/files/documents/reports/national-do-not-call-registry-data-book-fiscal-year-2015/dncdatabookfy2015.pdf> for the 2015 National Do Not Call Registry Data Book.)
- The CSN received over 3 million complaints (excluding do-not-call) during calendar year 2015: 40% fraud complaints; 16% identity theft complaints; and 44% other types of complaints.
- Debt Collection was the number one complaint category in the CSN for calendar year 2015 with 29% of the overall complaints, followed by Identity Theft (16%); Impostor Scams (11%); Telephone and Mobile Services (9%); Prizes, Sweepstakes and Lotteries (5%); Banks and Lenders (4%); Shop-at-Home and Catalog Sales (3%); Auto-Related Complaints (3%); and Television and Electronic Media (2%). The complete ranking of all 30 complaint categories is listed on page six of this report.
- Debt collection moved to the number one complaint category in 2015 due to a large increase in complaints from one data contributor.
- For military consumers, Identity Theft was the number one complaint category in the CSN, followed by Impostor Scams at number two.

Fraud

- Over 1.2 million complaints were fraud-related. Consumers reported paying over \$765 million in those fraud complaints; the median amount paid was \$400. Fifty-three percent of the consumers who reported a fraud-related complaint also reported an amount paid.
- Fifty-two percent of all fraud-related complaints reported the method of initial contact. Of those complaints, 75% said the telephone and 8% said e-mail. Only 4% of those consumers reported mail as the initial point of contact.
- Florida is the state with the highest per capita rate of reported fraud and other types of complaints, followed by Georgia and Michigan.

Identity Theft

- Tax- or wage-related fraud (45%) was the most common form of reported identity theft, followed by credit card fraud (16%), phone or utilities fraud (10%), and bank fraud (6%). Other significant categories of identity theft reported by victims were loan fraud (4%) and employment-related fraud (3%).
- Thirty-seven percent of identity theft complainants reported they contacted law enforcement. Of those victims, 89% indicated a report was taken.
- Missouri is the state with the highest per capita rate of reported identity theft complaints, followed by Connecticut and Florida.

2015	1,246,849	662,952	53%	\$765,256,827	\$1,154	\$400

¹The decrease in reported amount paid between 2014 and 2015 is due primarily to the loss of a significant data contributor.

²Average is based on the total number of consumers who reported an amount paid for each calendar year: CY-2013 = 731,386; CY-2014 = 865,905; and CY-2015 = 662,952. The amount paid is based on complaints with reported values from \$0 to \$999,999.

³Median is the middle number in a set of numbers so that half the numbers have values that are greater than the median and half have values that are less. Calculation of the median excludes complaints with amount paid reported as \$0.

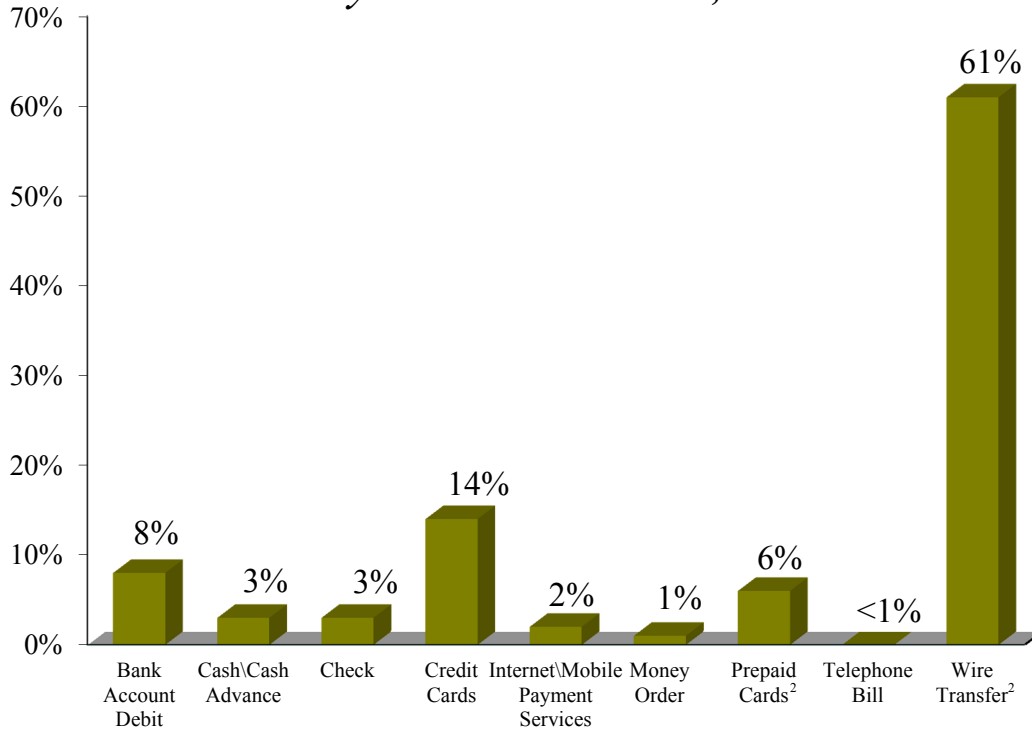

Note: See Appendix C for fraud complaints and amount paid figures by State and the District of Columbia.

Appendix A1: The Consumer Sentinel Network

The Consumer Sentinel Network is a free, online database of consumer complaints available only to law enforcement. It includes complaints about identity theft, fraud, financial transactions, debt collection, and credit reports, among other subjects. The Consumer Sentinel Network is based on the premise that sharing information can make law enforcement even more effective. To that end, the Consumer Sentinel Network provides law enforcement members with access to consumer complaints provided directly to the FTC, as well as to complaints shared by other data contributors.

www.FTC.gov/Sentinel

FEDERAL TRADE COMMISSION

IdentityTheft.gov

IdentityTheft.gov makes it easier for victims to report identity theft and to recover from it. When a consumer uses IdentityTheft.gov to report a problem, the site asks specific questions about the consumer's situation, and then uses the information to build a personal recovery plan. IdentityTheft.gov is integrated with the FTC's consumer complaint-gathering system. When consumers use IdentityTheft.gov to report a problem, the site makes information about the crime available to Consumer Sentinel Network law enforcement members. The complaint data becomes part of the Identity Theft Data Clearinghouse, the sole national repository of consumer complaints about identity theft.

www.IdentityTheft.gov

Econsumer.gov was created in April 2001 to gather and share cross-border e-commerce complaints, to respond to the challenges of multinational Internet fraud, and to improve consumer confidence in e-commerce. Today, consumer protection agencies in 36 countries participate in econsumer.gov. Through econsumer.gov, consumers can file cross-border consumer complaints online and learn other steps to take to combat fraud. The website is available in English, French, German, Japanese, Korean, Polish, Spanish, and Turkish. Using the existing Consumer Sentinel Network, the incoming complaints are accessible to certified foreign law enforcement agencies.
